## Certificate - Development upgrade

We, as  
**SCAT Europe GmbH**, Waldecker Straße 7, 64546 Mörfelden-Walldorf, Germany

**hereby declare that**

**our Exhaust Filter V2.0 product line** will be replaced by the improved **Exhaust Filter V3.0 product line** as of 01.01.2022.

The successor series V3.0 exceeds the predecessor series V2.0 mainly in the following performances:

- 20% increase in absorption capacity (CTC adsorption) from 70% to 90%
- Optimized base activated carbon for the absorption of organic solvent vapours
- Two additional functional layers of activated carbon to bind acids and alkalis

The Exhaust Filter V3.0 product line is tested according to the official ASTM / DIN / ISO test methods.

Mörfelden-Walldorf, 24<sup>th</sup> February 2022

Peter Rebehn  
CEO
